North Carolina

Student at Apex High School, expected to graduate in Summer 2023.

WORK EXPERIENCE

AOIT Member

Academy of Information & Technology | 2019-Present

A program that entails more computer related challenges and promised a better high school experience

- Signed up before graduating middle school through a lottery program and essay submission. Work more in technical aspect and take more programming and web design related classes.

Dogsitting

Independently Operated by Yours Truly | 2018-Present

Watching pets for neighbors and family members

- Working with neighbors and family members to watch their pets, mostly dogs in 2018 gave me a sense of responsibility and made me who I am today. It taught me to be kind, respectful, caring, and someone that people can trust and turn to with anything.

Job Shadow Experience

Academy of Information & Technology & Green Hope Elementary School | 2019

Shadow a job of your choice and report your findings

- Working alongside a teacher taught me that in some situations you have to be patient and cannot be irritated easily. It taught me that by sharing common interests even if not in the most advanced of ways, you can get along with someone.

Miracle League of the Triangle Assistant/Volunteer

Miracle League of the Triangle in association with St. Michael the Archangel Roman Catholic Church | 2019

Miracle League hosts baseball games where volunteers sign up to assist players who have special needs so that they can have some fun playing sports without having to worry about not knowing what to do or not having help.

- The Miracle League also showed me that you have to be patient. It helped me understand that not everything had to be about winning or scoring home runs, but just having fun and enjoying the time you spend together with others.

Brown Bag Ministry Volunteer

Brown Bag Ministry in Central NC in association with St. Michael the Archangel Roman Catholic Church | 2018

Around Thanksgiving, My local church hosted a brown bag ministry event where you would fill bags with food to give to those who were less fortunate in the spirit of giving.

- This was one of the first events in my life that I wanted to volunteer for rather than being forced to by a parent or required to by someone like a teacher. It taught me that when you have opportunities like this you have to take as many of them as you possibly can. If there's any chance you can help to give to those who can't help themselves you should always try your hardest to take it and be a part of it.

PROJECTS

An online interactive resume

GitHub project

A resume with a free PDF generator underneath the avatar

Travel and Tourism Project

Academy of Information & Technology Project

Be given a budget and plan an enjoyable vacation to a country of your groups choice while taking notes of costs and how much money you're spending.
